# Russians Charge Diplomat As Spy

MOSCOW (AP)—The Soviet Union charged U.S. diplomat Richard Carl Jacob with spying Sunday and ordered him out of the country.

In Washington, the State Department said the charges are a "complete fabrication."

The 26-year-old secretary-archivist was the third U.S. Embassy staff member expelled on spy charges in less than a month.

The Soviet news agency Tass accused Jacob of "maintaining secret liaison with a spy on the territory of the Soviet Union."

A U.S. Embassy spokesman said Jacob, of Egg Harbor City, N.J., was arrested by Soviet authorities Friday.

"He was forced into a car and taken to a militia station where he was detained against his will for two and one-half hours," the spokesman said.

The embassy protested Saturday to the Soviet Foreign Ministry, charging that Jacob had been illegally detained.

Tass said Jacob was "caught redhanded while removing intelligence data from a secret hiding place in the entrance hall of house number 5-6 Pushkinskaya Street in Moscow."

It said the nature of the materials made it certain "beyond a shadow of a doubt" that he was in contact with an undercover agent.

## Despite Wife's Death Mikoyan Talks Continue In Cuba

HAVANA (AP) — Although reported deeply grieved by the death of his wife, Soviet Deputy Premier Anastas I. Mikoyan continued his crisis talks with Prime Minister Fidel Castro on Sunday.

The two met twice at the government palace, the first time for 2 hours and 25 minutes. The length of the second meeting was not given and no communiques were issued.

Cuban officials have given no hint of the nature of the talks, presumably deal with U.S. demands for inspection of the withdrawal of Soviet missiles from Cuba.

## Soviet Economy Teeters

MOSCOW (AP)—A showdown on the future direction of the Soviet economy seems almost certain at this month's Communist party Central Committee meeting as a result of the Cuban crisis, Western diplomats said Sunday.

For some time there have been indications that the session may mark a milestone in Soviet economic policy.

But new signs of Moscow's own great debate have appeared in the string of visits here of leaders from other Communist states of Eastern Europe whose welfare is closely geared to Kremlin policy.

The latest visitor at the Kremlin was the Polish party chief Wladyslaw Gomulka.

Earlier, the East German party chief, Walter Ulbricht, President Antonin Novotny of Czechoslovakia, Bulgaria's Todor Zhivkov and Romania's Gheorghe Gheorghiu-Dej were here. Some of Eastern Europe's and the Soviet Union's top-level economic specialists and planners sat in on the conferences.

Long before the Cuban affair blew up Soviet plant directors and economists began pointing out that factory operation in the Soviet Union needed a rugged overhauling.

More investment capital is needed to maintain the upward trend in industrial production, and the party and government leaders accept the Cuban situation as a challenge demanding still more arms outlay.

Or will the premier decide that the arms race is not as important as the building up of Soviet industry to overtake the United States?

Ever since the summer of 1961 more and more Soviet capital has been diverted into arms production. The result has been a steady cutting back in the amount of capital going into industry.

On top of that, factory managers and economists have been crying out that a new system stimulated by the profit motive must be developed to produce more goods and on a more economic basis.

## Election Outcome Is Near At Hand

HARRISBURG (AP)—The outcome of almost nine long months of campaigning will be decided in a relatively short 13-hour period Tuesday as Pennsylvanians go to the polls to elect a governor.

For the 5,673,497 registered voters, there is a decided contrast in the two candidates they will consider for office. The polls open at 7 a.m. and close at 8 p.m.

Democrat Richardson Dilworth, at 64, is a seasoned political professional who, himself, proclaims the governorship will be his last elective office if he is victorious.

Republican William W. Scranton, at 45, is making his second run for public office. His first was his successful bid in 1960 to unseat the incumbent Democrat in Pennsylvania's 10th congressional district.

A victory is expected to project him into the 1964 presidential picture.

The Democrats have held the governor's chair for the last eight years, and they have a registration margin of approximately 196,000.

There are also 73,158 registered independents and 4,076 members of other parties.

The electorate also will choose a U.S. senator, 27 congressmen, a lieutenant governor, a secretary of internal affairs, a state Supreme Court justice, all 210 members of the state House of Representatives and 27 state senators—to fill current vacancies.

The senatorial contest pits Democratic incumbent Joseph S. Clark of Philadelphia against veteran congressman James E. Van Zandt of Altoona.

Theirs has been a heated campaign, with Van Zandt pressing Clark as his central issue the last two weeks. Van Zandt says he has long been advocating a naval blockade.

Clark, on the other hand, says he opposed a blockade until there was firm evidence of an offensive Communist buildup there. When the President announced his decision, Clark supported it.

## K's Proposal Met Coldly

NEW DELHI, India (AP)—Indians reacted coldly Sunday to Soviet Premier Khrushchev's proposal for an immediate and unconditional cease-fire in the undeclared Indian-Red Chinese border war. Both Peiping and New Delhi made clear there will be no quick end to the Himalayan hostilities.

Prime Minister Nehru announced plans to establish a national defense council to coordinate the Indian war effort. It will include three military chiefs of staff and six Cabinet members, among them V. K. Krishna Menon, the demoted defense minister who now is minister of defense production.

Official sources said India plans to reiterate its big condition for a truce in its response to the proposal Khrushchev sent Nehru on Friday for a cease-fire without conditions. India's condition is a pullback of the Chinese invasion spearheads.

The Soviet leader will be told that there could be a cease-fire and peace talks with Peiping any time if the Chinese withdraw to the positions they held before they began incursions into northeast India on Sept. 8, these informants said.

But if the Chinese refuse, India takes the position that, "There is no alternative left to us but to resist this attack, whatever may be the cost or the consequences to us."

Reds Reject Idea  
Red China rejected the idea of giving up the fruits of its offensive in a previous exchange with New Delhi. And Premier Chou En-lai emphasized in a statement broadcast from Peiping that the Chinese consider India the aggressor and will fight on to hold their gains.

"No one should expect China to surrender before military force" if India attempts to reoccupy the disputed border territory, Chou said in receiving a North Korean trade mission.

Without referring to Khrushchev's call for a truce, the Chinese leader said, "The Indian government has rejected the Chinese government's proposal (for negotiations) and has demanded that China agree to the reoccupation by India of a vast Chinese territory as a precondition to opening talks."

"Furthermore," he said, "it is regrettable that India is buying great quantities of weapons from the United States, Britain and other Western countries to prepare for a second large-scale attack."

British Weapons Arrive  
British weapons began arriving last Monday in small shipments. Two Canadian Caribou planes are coming, and Canada has promised to send weapons and other equipment. Some arms may also have been received from France.

But it is to the United States that the Indian army is looking for most of its needs.

Low yield means a blast equivalent to 20,000 tons or less of TNT, while intermediate yield is the term used to describe explosions equal to 20,000 to one million tons of TNT.

The statement, attributed to President Kennedy but distributed by press secretary Pierre Salinger said in part: "I hope that in the next month we can conclude an effective test-ban treaty so that the world can free itself from all testing. Agreement in this area would be an important first step toward our continuing goal of workable disarmament arrangements which can cut down the threat of war."

On March 2, I offered to stop further nuclear tests, if the Soviet Union would accept an effectively verified test-ban treaty. This offer still stands. We shall devote our best efforts to conclude such a treaty and hope all others will do the same."

Sunday morning's shot over the Pacific was a low-yield device fired 20 to 30 miles high by a Nike-Hercules rocket. It was seen in Honolulu 750 miles away.

The test was the fifth successful high-altitude shot in the series. There were four failures.

This last test was the 36th of the series that began last April 25 after the Soviet Union broke a three-year moratorium on atmospheric testing in September 1961.

## Threats Of War Aired In Mid-East

DAMASCUS, Syria (AP)—In a rising war of words, Yemen's revolutionary regime threatened Sunday night to invade Saudi Arabia's main southern port of Qizan and the interior city of Najran.

Saudi Arabia in turn vowed vengeance for a Yemeni air raid Friday. And Premier Wasfi Tell of Jordan, accusing the United Arab Republic of aggression in the raids, proclaimed solidarity with Saudi Arabia. He declared Jordan "finds itself compelled to crush it (aggression) with determination."

Qizan and Najran were taken from Yemen by Saudi Arabia's late King Ibn Saud, father of King Saud, in war against Yemen in the 1920s.

Qizan is about 40 miles from Yemen's northern border, where Yemen's revolutionary forces are reported massing.

President Abdullah Sallal of the Yemeni regime was quoted in a Yemeni broadcast as threatening to march his forces into Saudi Arabia's Red Sea port of Qizan and the frontier city of Najran, 150 miles inland.

Sallal said he had ordered his government to prepare the people for "a showdown battle with Saudi Arabia." He declared "Arms will be distributed among you soon and soon we will teach them an unforgettable lesson."

In an earlier speech in the diplomatic capital of Ta'izz, Sallal also spoke of a showdown with Saudi Arabia and declared President Gamal Abdel Nasser of the U.A.R. had "placed all his potential and power on our side."

Saudi Arabia accused Nasser's U.A.R. of aggression with air raids on southern Saudi villages from Yemeni soil Friday. A broadcast from Mecca pledged Saudi Arabia will "stop short of nothing" to "avenge the victims of five aggressive air raids on our villages."

Ruegger, ex-president of that all-Swiss committee, will come to New York from his Geneva headquarters to talk with U.N. Acting Secretary-General U Thant about the plan.

Two Check Points  
Authoritative sources, disclosing this Sunday, said the idea is still in its formative stage. But they said it is likely to involve stationing Red Cross personnel aboard picket ships at two check points on the high seas, one of Havana and the other in the Windward Passage between Cuba and Haiti.

Each incoming Soviet ship, by radio, would arrange a rendezvous with one or the other of these check points.

At the designated time, it would submit to Red Cross inspection. The captain might present the usual cargo manifest for checking during the inspection or, if proper arrangements could be worked out, he might present a certificate that the ship was carrying no arms.

Red Cross inspection would substitute for a blockade the U.S. Navy now is maintaining around Cuba to make sure no long-range missiles, bombing planes or accessories are shipped there.

Letters Exchanged  
In letters exchanged a week ago Soviet Premier Khrushchev and President Kennedy agreed that the Soviet Union would dismantle missile bases in Cuba and move the missiles home in return for a U.S. pledge against invasion of that island.

## JFK Determined That Arms Go

WASHINGTON (AP)—President Kennedy was described Sunday as feeling that some kind of surveillance must continue indefinitely over Cuba to guarantee against any renewal of a Soviet missile buildup off the U.S. coast.

Government sources reported this position of the President while emphasizing that he is determined to verify the removal of Soviet offensive weapons from Cuba by international inspection teams.

Nothing less will be satisfactory, he was said to maintain.

As negotiations took place in the United Nations and between Soviet Deputy Premier Anastas I. Mikoyan and Premier Fidel Castro at Havana, sources close to the President sought to make clear that Kennedy is convinced on-the-spot inspection is vital before the United States can be satisfied that a Soviet threat has vanished from Cuba. They insisted also that continuing surveillance would be necessary to guard against any future introduction of Soviet missiles to Cuba.

Kennedy, these sources said, views his agreement with the Soviet Premier Nikita S. Khrushchev on the dismantling of Soviet bases in Cuba as hard diplomacy which allows no room for doubt on either side. Kennedy was pictured as feeling neither Moscow nor Washington should be put in a position of relying on anyone's unconfirmed word.

Top U.S. and Soviet negotiators on Cuba had a three-hour luncheon meeting at the United Nations in New York Sunday, but there was no announcement on the subject of the talks.

John J. McCloy, chairman of President Kennedy's coordinating committee on the Cuban crisis, gave the luncheon for First Deputy Foreign Minister Vasily V. Kuznetsov, Premier Khrushchev's special envoy on Cuba.

It was learned, meanwhile, that Paul Ruegger of the International Committee of the Red Cross will arrive Tuesday to negotiate with the United Nations on a plan for Red Cross inspection of Cuba-bound Soviet ships to see that they carry no arms.

Edwin M. Martin, assistant secretary of state for inter-American affairs, said destruction of Soviet missile bases in Cuba is almost complete, but he cautioned that the crisis is not past, and will not be until there is on-the-scene verification that the Soviet nuclear rockets have cleared the island.

Martin, who spoke on a television interview (ABC-News and Answers), said that although the dismantling "looks good we still do not know where they (the missiles) are going or have verification they have left the island or will not be reintroduced."

On the surface official Washington marked time on Cuba, pending the outcome of the Mikoyan-Castro talks. Technically this meeting is a consultation, but the U.S. view is that Mikoyan can and should prod Castro into accepting Soviet Premier Khrushchev's program for proven elimination of the Soviet rockets.

On the question of inspection to verify elimination of the Soviet offensive weapons, there is room, government sources said, for negotiation on the makeup of any international inspection teams. By the terms of the Kennedy-Khrushchev agreement, the United Nations would supervise the verification that Soviet missiles have been removed from Cuba—a condition which would then be followed by withdrawal of the U.S. blockade and assurances that the United States would not invade Cuba.

In Kennedy's eye, it was reported, inspection teams must be competent, acceptable, trustworthy and composed of representatives of more than one nation or group.

The chief executive is said to believe that some such organization as the International Committee of the Red Cross could check at sea both traffic leaving as well as entering Cuba. Its agents could inspect ships for crated missiles or for the IL-28 light jet bombers that the Soviet Union has placed in Cuba. Through its own intelligence, the United States claims to be pretty well informed as to how many missiles and planes Khrushchev dispatched to Cuba. One source said the government knows exactly how many IL-28s are present and that they number more than 30.

Prepares For Showdown  
Sallal said he had ordered his government to prepare the people for "a showdown battle with Saudi Arabia." He declared "Arms will be distributed among you soon and soon we will teach them an unforgettable lesson."

In an earlier speech in the diplomatic capital of Ta'izz, Sallal also spoke of a showdown with Saudi Arabia and declared President Gamal Abdel Nasser of the U.A.R. had "placed all his potential and power on our side."

### Wind Blows Youth To Death

TOKYO (AP)—A strong gust of air swept a teen-age attendant holding a big advertising balloon from the roof of a three-story building Sunday and sent him plunging to his death.

Giichi Motoishi, 17, police said, was trying to pull in a 10-foot balloon when a 25 mile per hour gust lifted him off the roof. The boy let go of the balloon cord, but missed the roof and fell to the street below.

### No Injuries As Car Hits Cinder Truck

NO ONE was injured in the collision of a Pennsylvania Dept. of Highways cinder truck and a car on the bridge between Stroudsburg and East Stroudsburg on Interstate Route 80 at 1:15 a.m. yesterday.

State Police of the local barracks said an east-bound car operated by Peter S. Miller, Jr., 33, of 337 Merten St., East Stroudsburg, struck the rear of the truck operated by William H. Brush, 30, Buck Hill Falls, which was cinder-ing the icy highway.

Troopers said the impact drove the truck 40 feet ahead. Damage was estimated at \$3,000 to the truck and \$1,500 to Miller's car.

### Accident On Main St. Saturday

A TWO-CAR collision was investigated Saturday at 11:04 a.m. by Stroudsburg Police in front of the Teddy Bear store on Main St.

The drivers were identified as Lorraine Kintner, 37, of 605 Stevens St., Stroudsburg, and Ruth E. Marsh, 43, Box 79, Stroudsburg, RD 2.

Police reported that the Kintner car was backing out from a parking space in front of the Teddy Bear store. As she backed out her car struck the Marsh vehicle.

Damage was estimated at \$75 to the Marsh car and Police said there was no visible damage to the Kintner vehicle. They made no arrests and will continue the investigation.

CRICKET has been enlivened in western Samoa where it was introduced in the 1880s. Teams field 10 to 300 players instead of the customary 11. Contests last for days amid a carnival air. A successful bowler sometimes turns cartwheels down the pitch; impromptu dances celebrate a hit.

### Bushkill Man Injured In 2-Car Crash

DAVID Squires, 18, of Bushkill, was taken to the General Hospital of Monroe County following a two-car accident Saturday at 4:30 p.m. in the intersection of Bryant and Broad Streets, Stroudsburg. He was treated and released by hospital doctors.

Police said the drivers of the cars were Mrs. Alice Groner, 62, of 15 Club Court, Stroudsburg, and William J. P. Davis, 18, Box 343, Marshalls Creek.

Mrs. Groner told police she was traveling east on Bryant St. and had stopped for the stop sign. She saw no cars approaching and proceeded through the intersection and was struck the left rear of the Davis vehicle.

The force of impact spun the Davis car around and it struck a telephone pole on the right side of the highway.

Damage is estimated at \$300 to the Groner car and \$1,000 to the Davis vehicle.

### Damages Slight In Crash

STROUDSBURG Police investigated a two-car accident Saturday at 1 p.m. at the intersection of Eighth and Sarah Streets. They reported no injuries.

The drivers were identified as James H. Hagerty, 50, of 720 Scott St., Stroudsburg, and Forrest M. Nevil, 19, East Stroudsburg, RD 3.

Police said Hagerty was traveling south on Eighth St. when Nevil came out of Sarah St., traveling east, right in front of the Hagerty vehicle and they collided. Damage is estimated at \$100 to the Hagerty car and \$125 to the Nevil vehicle.

## Yetter Sings Praises Of Pa. Development Authority

VAN D. YETTER Jr., Democratic candidate for representative in General Assembly, said yesterday that "intensive efforts by two Democratic administrations have provided more jobs for Pennsylvanians, brought more industry to Pennsylvania and have made the state's industrial climate once again vigorous and truly competitive."

Speaking at the CLU Club, Yetter said: "No amount of Republican propaganda and distortion can hide the real progress made in industrial development in the past eight years. The marked boost in employment, the increase in industrial facilities and the testimony of the Pennsylvania State Chamber of Commerce clearly acknowledge it."

"In 1957, after the state's tax structure was revamped as the result of Democratic legislative action, the state chamber reported that the business tax situation had improved considerably. And no less an authority than the chairman of the board of U. S. Steel, Clifford Hood, agreed with the chamber's conclusions."

"The first effort to combat industrial stagnation was made in 1957 by Gov. George M. Leader when the famed Pennsylvania Industrial Development Authority was created. In less

than six years of operation, PIDA has granted 211 loans totalling nearly \$27 million for new and expanding industry in more than 80 Pennsylvania communities.

"Here in Monroe County, PIDA loans were granted to several industries. This action brought new jobs to the county and increased the annual payroll."

"On a statewide basis, PIDA alone has helped to create an estimated 40,000 new jobs with an annual payroll of \$216 million."

"In addition, the revitalized and professionalized department of commerce under Democratic administrations also pioneered a State Industrial Assistance Act, which offers to countywide industrial development agencies on a matching fund basis essential tools to aid in their industry-hunting efforts."

"Since 1956, Monroe County has received several industrial assistance grants. Richardson Dilworth has pledged that under a new Democratic administration, the unemployment requirement for PIDA eligibility will be removed and its loan powers will be extended to include commercial and research projects and also machinery and equipment for new and existing firms."

"A new Democratic administration in Harrisburg will work closely with the Democratic administration in Washington on such important programs as the Area Redevelopment Administration (sponsored by Pennsylvania's Sen. Joseph S. Clark), the Clark-Holland Manpower Development & Training Act, the new public housing law and the Emergency Public Works Act—programs which are already aiding Pennsylvanians immeasurably."

The fact that we now have a balanced budget based on sound fiscal policies is a great help to encourage our industries to stay and new enterprises to come into our communities."

"The only way for Pennsylvania to move forward into the Space Age is to continue the enlightened Democratic leadership we have had for nearly eight years," Yetter said.

## Yetter-Snyder Hearing Set For Tonight

A CHARGE of criminal libel against Gerald A. Snyder, Republican candidate for Monroe County's seat in the State House of Representatives, will be argued at a hearing at 6 p.m. today before Chester R. Staples, East Stroudsburg justice of the peace.

The charge was preferred by the incumbent Democratic candidate for the office, Van D. Yetter, Jr.

Snyder also is charged with delivering a "false and libelous" statement for publication in a newspaper. In the statement, Snyder accused Yetter of padding his expense account during the 1960 session of the Legislature.

### Rescinds Increase

NEW YORK (AP)—Olin Mathieson Chemical Corp. rescinded a 10% per cent increase on the price of grocery, nail and liquor bags that had been due to become effective Friday. A company spokesman said the step was taken because other major bag producers did not post similar higher prices. The increases were announced three weeks ago.

## Vacation Bureau Receives Tourist Promotion Funds

POCONO Mountains Vacation Bureau received a check for \$16,100 from the Commonwealth of Pennsylvania Saturday. The check represents the initial payment for promotion of the Poconos vacationland industry under terms of the new program inaugurated by the State Legislature.

Monroe County Assemblyman Van D. Yetter presented the check to William Altier, President of the Vacation Bureau. Yetter was the sponsor of the Tourist Promotion Assistance Act in the General Assembly. In presenting the check to Altier, Yetter said:

"The promotion of travel and tourism in Monroe County is essential to our growth. Travel has become one of the most important of all industries in Pennsylvania — and especially in the Poconos where more than one-half of all resort facilities are located."

"Last year, the travel industry accounted for more than a billion and a half dollars in Pennsylvania's economy — a greater share of the economy than the combined income from the entire coal industry and agriculture."

"At the same time, however, we should remember that every time we encourage visitors to Pennsylvania and Monroe County, we are attracting potential industrial prospects. Here, in our own County,

at least two major industries were encouraged to settle here after their management had visited the area on vacation."

"I am particularly proud that was able to sponsor legislation to provide financial assistance to the Vacation Bureau in its effort to bring more visitors into our area. This is just one more example of the way in which constructive lawmakers can work for the betterment of their own communities."

Joining with Altier in accepting the check were John Lesoine, Chairman of the Monroe County Commissioners and John E. Calhoun, new Executive Secretary of the Vacation Bureau. The Pocono Mountains Vacation Bureau was named as official recipient of State funds under the terms of the law by the Monroe County Commissioners.

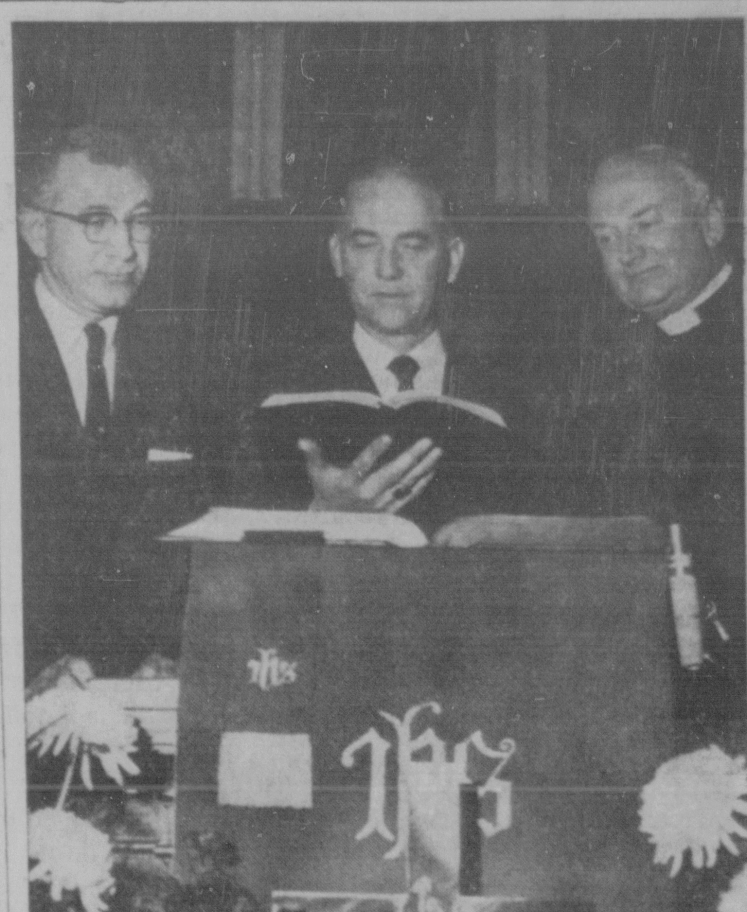

Altier welcomed the payment and said that the Vacation Bureau intends to wage an "active and intensive drive to encourage greater travel in the Poconos during this coming year."

He said that the \$16,100 check from the Commonwealth would provide welcome funds for the aggressive campaign the Vacation Bureau hopes to carry out through public relations and publicity placed in metropolitan newspapers.

Altier pointed out that there is conclusive evidence that a good public relations program pays enormous dividends in the drive to bring visitors into a resort area.

"The Pocono Mountains region will grow and expand in accordance with the amount of effort we put into drawing attention to it as the Nation's number one vacationland in the Nation's number one metropolitan population area," Altier said.

The \$16,100 check was presented by Rep. Yetter at the request of Secretary of Commerce Thomas J. Monaghan who was unable to present it due to the death of his mother.

## WHAT PEOPLE WHO KNOW SAY ABOUT CONGRESSMAN WALTER

I had been looking forward to visiting Easton and I regret deeply that circumstances which are overriding forced me to cancel the engagement.

I have warm memories of my last visit to Easton. I also would have considered it an honor to visit your friends and neighbors and to tell them out of my heart about the splendid service you have rendered your district and your nation for so many years — service in advancing the prosperity of our country; in combating communism; and in safeguarding the constitutional rights of our people.

Lyndon B. Johnson  
Vice-President Of The United States

Because I am familiar with the major contribution you made to the Army's purchase of 485,000 tons of anthracite for use in its West Germany installations, I should like to express the industry's sincere thanks to you.

You may recall that I solicited your help and advice on this project on May 1. You immediately went to work on it and have played a leading part in its successful culmination to the great benefit of both the anthracite industry and the economy of Northeastern Pennsylvania. We are indeed grateful.

## A 'Profit Gouge'

In some circles the belief is held that state-controlled economies in which prices are fixed by government provide a better break for consumers than profit-seeking enterprise in the United States.

Representatives of 109 nations in a meeting of the United Nations Social Committee were given evidence to the contrary.

During a discussion of prices of commodities which provide much of the income of underdeveloped countries, the Soviet Union attempted to blame price declines on the West.

Mrs. Ronald Tree, U. S. representative, pointed out that tea imports into the Soviet had fallen from 5 percent of world shipments in 1939 to less than 3 percent today. On the other hand, the U. S. uses half the world shipments of coffee and imports 9 percent of the tea.

She suggested that nations with state trading-monopolies might do well to reduce exorbitant prices to consumers.

The Soviet consumer, she said, pays

80 times the import price. In Poland, tea costs the consumer 62 times the import price.

Under American competitive free enterprise, tea is imported, blended, packaged and sold to consumers at about four times the import price.

For coffee, the Soviet consumer pays 13 times the import price and the Polish consumer pays 97 times the import price, while the American consumer gets his coffee for little more than twice what it costs to bring it here.

The implication in Mrs. Tree's remarks was that some of the commodity surpluses which plague the developing nations would be greatly alleviated if such state trading-monopolies would stop gouging consumers by fixing prices at levels "fantastically higher" than the world market and make it possible for them to enjoy greater consumption.

There is ample evidence that nothing is so rapacious as far as consumers are concerned as the state-controlled economy of a totalitarian society.

### Opinions Of Other Editors

## Communist Logic

The reason Mr. Khrushchev gave for sending missiles to Cuba is so plausible that it needs a hard second look. Otherwise a great many people are going to accept it. Many already have.

He intervened, he said to President Kennedy in very disarming language in his letter of last Saturday, to keep the United States from intervening. He was defending Cuba as he had promised to do. Now that his job is done, now that he has compelled the United States to agree not to invade, he is taking his missiles home.

It all sounds big brotherly and protective and Mr. Khrushchev used language that would melt in most anyone's mouth. The letter has to be read textually to be believed possible. All this fearful scare took place, it indicates, because "Cuba and the Cuban people have been under the constant danger of an (American) invasion of Cuba."

He is quite right about the fact, of course. The United States Government did consider invading Cuba at several points during the mounting crisis, and decided not to. There also were pressures on the government to invade from various political figures and groups of public opinion.

All Mr. Khrushchev neglected to mention was why.

## To Boys And Girls

A lesser man often does not take the trouble to answer letters that come to him from boys and girls, but Herbert Hoover has never been a lesser man. As he explains it:

"I was a kid once. I grew up on sand-lot baseball, swimming holes, and fishing with worms. I had a minor part in raising two boys of my own. I directed the food supply to hundreds of millions of children, and I also directed the rehabilitation of tens of millions of them — the victims of famine and disease. And I have for twenty-five years had a hand in administering the Boys' Clubs which look after six hundred thousand boys."

My own children will ever have this man in their memory, for they have been with him on Christmas Day ever since they could walk and one of my boys followed in his footsteps and became a geologist.

And so he had Bill Nichols, a friend who edits "This Week," to go through thousands of letters from boys and girls and his replies to them. And so the little book, "Herbert Hoover on Growing Up, his letters from and to American children," was put together and starts with this:

I am a Cub Scout. We are studying about Presidents. I would like some information about your boyhood or some interesting fact about your life.

Yours truly,  
Ronnie —

My Dear Ronnie:

I have your letter, and am proud to be under examination by a Cub Scout. I had a joyful boyhood on a farm and under the guardianship of a country doctor.

The most interesting fact about my life is that due to the kindness and care of those persons, I was given a tough body. I have lived for more than eighty-seven years.

I have worked in over fifty different nations of the world. When you get older, you will find books giving the details. In the meantime I am sending you part of a speech which I made about my own growing-up.

Then there is this one:

Dear Mr. Hoover:

Our ninth grade class is conducting an interview. We could write to anyone we please, I have chosen you.

Would you please answer these questions if possible.

1. What was your first job?
2. Of all the Presidents which one do you admire the most?
3. Can you speak any other language besides English, if so which ones?
4. If you were in President Kennedy's place what would you do about the Berlin crisis?
5. What do you think of Premier Khrushchev's action?

Yours truly,  
Dennis —

My Dear Dennis:

1: Household and farm chores were my first jobs. They were unpaid. My first regular paying job was office boy.

2: My greatest admiration is for both Washington and Lincoln, but we have also had other great Presidents.

3: I once spoke sufficient French to get around on railways and in hotels — but not enough to negotiate with governments.

4: I would do exactly what he is doing.

5: I have a very poor opinion of him in every respect.

The truth of Herbert Hoover's character — the whole truth — went to a girl, Joyce-Ann — Dear Mr. Hoover:

I am a student of history and am preparing a book of favorite quotes of famous people. I would appreciate it to have yours among the collection.

Sincerely,  
Joyce-Ann —

Dear Joyce-Ann:

My favorite quote is the Sermon on the Mount.

Herbert Hoover writes beautifully English and these letters will help many a boy and girl over tough spots because there is a wholesome philosophy in this Quaker who at 88 fought the battle of a severe operation and then went back to work. In this era of the young man, it is good to recall all the wonders of the experienced and mature-minded.

This is a man whose total assets on the day he was graduated from college were a diploma and \$20.22 and out of such possessions and a strong body and the good teachings of family and friends he was early an orphan and he built for himself and his country a wonderful career.

This is a book to be given to the children of this generation on Christmas Day. It might help them understand themselves and the world in which they live with greater kindness and sweeter temper.

Good Government's Worst Enemy

The Pennsylvania Story

## Issues Or Personalities?

By Harrisburg

Will the contest for Pennsylvania's governorship, when it is decided tomorrow, be decided on the basis of issues — or candidate personalities?

The question is intriguing in more ways than one — and perhaps highlights this year's governorship campaign in the Keystone State more so than any similar campaign of contemporary note.

Issues have been brought to the forefront by both candidates, to be sure — just as they have in every previous campaign — but a number of these issues have been almost academic; issues that have been politically scrambled in one election after another.

The question of new taxes illustrates the point. Both candidates have fiddled around the subject without any specific commitment (smartly so) — for the simple reason that neither knows at this point what may be needed next year!

Unemployment is another good illustration. Both Democratic candidate Richardson Dilworth and Republican hopeful William W. (Arren) Scranton have vowed to "do something about it" — yet the tantalizing fact is that eight and four years ago in-office Democrats vowed, vowed and promised the same thing. It's a good routine "appealer" issue unquestionably — but the (overlooked) fact is that joblessness in the Keystone State today is lower than it has been in many a jobless moon!

And so on down the line — medical care for the aged (both agree it should be adequately provided but differ on method); highways (both are for bigger and better highways); education (both agree Pennsylvania's program should be stepped up; both go along with school district reorganization — Mr. Scranton feeling some changes are in order and a delay in the program warranted; Mr. Dilworth feeling everything's fine as is).

The "issues" of the past campaign have been somewhat static, perhaps seemingly pedantic — but nevertheless actually vitally important.

However the "personality approach" of the two gubernatorial candidates this year has been on the unusual and most interesting side, with the feeling persisting around Capitol Hill the past several weeks that in a close election outcome (which most expect) such singular factors as this "personality approach" may well become highly influencing or perhaps decisive!

Fundamentally the two candidates have in common the fact that neither will be forced to draw unemployment compensation benefits if he loses the race; both are Yale lads; both are good, solid, somber-looking gentles; both are far from being physical wrecks, and both have good war records.

That's about where the similarity ends — and where the perhaps heavily influencing, divergent personality characteristics take over.

Undeniably the most outstanding characteristic on this score is the public approach of the two.

Dick Dilworth seemingly gets easily excited, wrapped up in a big emotional bent on a subject that may be dear to his heart. Bill Scranton on the other hand — and in direct contrast — gets about as excited (emotionally) as a parking meter at a

race track; demeanor and visible outlook remain constant.

Dilworth makes a purposeful, forceful, jowl-shaking, dramatic (excellent) appeal to his audiences — an appeal that arouses jumping and clapping instincts in his listeners. It is almost solely the forceful approach. Dick Dilworth seemingly relies on the "quantitative" approach — a surface appeal to the masses.

Scranton is businesslike, calm, no voice-raising, deliberate, head-scratching, unperurbed, unruffled and one might say, undramatic. He refuses to flail the air. Bill Scranton seemingly relies on the "qualitative" approach, a detailish, skull-scratching appeal that in itself does not send rank and file into rapture or fits of heel-clicking, but makes the listener think (if he can).

Candidate personalities this year unquestionably will have greater impact than ever before. The question is: how much and with which candidate!

No other man, in his moment of apparent victory, can be more aware of secret compromises, shabby deals, the sad small intrigues of success.

### The Allen-Scott Report

By Robert S. Allen and Paul Scott

Washington, November 5 — Whatever else may or may not be dismantled in Cuba, Fidel Castro is showing no signs of dismantling his blood-letting firing squads.

His Communist goons slaughtered 47 Cubans last month after they were arrested on suspicion of either being members of the anti-Castro underground or helping "U. S. agents."

Two U. S. intelligence operators, captured in the vicinity of a Russian missile base, were executed on the spot by a Red firing squad.

The intelligence operators' radio reports, giving eye-witness accounts of missile base construction and locations, ended abruptly three days after they parachuted into the Cuban interior. Their fate was reported by refugees.

These murders and Castro's new killing wave are being suppressed under one of the tightest censorships ever clamped on U.S. intelligence and military personnel in peacetime.

The suppression order came

directly from the White House.

It limits the circulation of intelligence information on Cuba, Berlin and Russia to only six top officials in the Defense Department. Not even the Secretaries of the Army, Navy and Air Force are permitted to see this information without direct authorization from Defense Secretary McNamara.

A suppressed intelligence estimate reveals that the Cubans shot by Castro's firing squads were executed without a trial and without specific charges being brought against them.

Fourteen officers in Castro's own militia were led to their death within an hour after being seized. All they were told was that they were disloyal, and that was their summary death sentence.

The censored intelligence report credits the latest killing wave to invasion jitters by high Castro officials and their Russian advisers. In several instances, pro-Castro Cubans were seized and shot because of their detailed knowledge of Soviet missile and bomber bases.

Since Castro's firing squads

## Wholesale Slaughtering Of Cubans Continues

By Robert S. Allen and Paul Scott

began the executions in 1959, Cubans. So far, none of the recent executions involved any of the 1,113 prisoners taken during last year's ill-fated invasion. Castro is apparently keeping the door open to ransom these prisoners for \$60 million in U. S. food and medicine.

**Cuban Politics** — One of the intriguing facts of the congressional campaign was the strenuous effort of the Senate Democratic Campaign Committee to keep Cuba from becoming a major issue in key senatorial races.

The Committee, which has expended some \$350,000 during the campaign, sent a series of confidential memorandums to Democratic candidates urging them to "ignore Cuba" as an issue.

Prepared by John F. Kraft, Inc., consultants to the Committee, the memorandums cautioned candidates to leave the issue to the President. If pressed to debate Cuba, they were advised to "allude to" or "simply repeat" the President's statements.

For example: One confidential memorandum, dated October 15 and circulated by Senator Vance Hartke, chairman, at the outbreak of the Cuban crisis, contained these instructions:

"The following material is being furnished you on a confidential basis. It has been prepared by John F. Kraft, Inc., Public Opinion Researchers, and is being made available to you by the Democratic Senatorial Campaign Committee.

"Ignore Cuba. If forced, allude to the President's statement: 'If forced harder, simply repeat the President's statements. Don't get distracted from important issues. Don't be trapped into being defensive about it.'

"Even in a state like Florida, on the doorstep of the problem, voters do not attach responsibility to one party or another, or one President or another.

"In Florida, concern is deep, much more so than in Maine or Wisconsin, or Utah. But for all of the heightened concern, the fundamental concern is with finding resolutions, solutions, or conclusions short of threats of war."

"Attention to the Cuban issue can only detract from attention to problems which are of greater importance. Obviously, there is only so much time a candidate can expect from a voter, in terms of attention. Any time given to Cuba must detract from the more important focus on problems which really matter."

A later confidential memorandum, dated October 20 and circulated to all candidates, pointed out that the President should be fully supported in all his Cuban actions.

It stated that "The Presidential popularity rating has been stiffening" and that this was partly due to his actions on Cuba, and "a decline of interest in the family."

# Congo Parliament Meets Today In Crucial Setting

By ROBIN P. MANNOCK  
LEOPOLDVILLE, the Congo (AP) — The Congo National Parliament meets Monday in the same crisis atmosphere that has plagued this African nation since it gained independence two years ago.

Premier Cyrille Adoula's regime is at stake, with fear the show of democracy may plunge the country into a dictatorial rule.

Opposition members are claiming strength enough to overthrow the moderate premier, who assumed power in August 1961 as a compromise choice between rival factions.

**Two Issues**

Two hotly contested issues will face Parliament—the United Nations plan for a new federal constitution favored by Adoula, and a political amnesty demanded by President Moïse Tshombe of Katanga and some other Congolese leaders.

Some of Adoula's advisers have been urging him to dissolve Parliament, on the ground its membership no longer represents the people, and to rule as a dictator.

## Three ESSC Students Are Honored

DR. LEROY J. Koehler, president of East Stroudsburg State College, has announced that the following students have been selected for placement in the annual publication, "Who's Who Among Students in American Universities and Colleges":

William H. Beck, son of Mr. Howard Beck, R.D. 3 Box 87-A, Stroudsburg, Pa.; Nancy J. Capozzello, daughter of Mr. and Mrs. Joseph Capozzello, R.D. 1, Bangor, Pa.; Sandra J. Carlton, daughter of Mr. and Mrs. Richard Carlton, Delaware Water Gap, Pa.

The listed students are part of the twenty seven that were chosen for this outstanding honor. The selection of students is based on scholarship, participation and leadership in academic and extra-curricular activities, citizenship and service to the school, and his or her promise of future usefulness.

THE world's largest wildlife sanctuary is the Etosha Pan Conservation Territory in Southwest Africa. It covers 26,000 square miles, the size of Delaware and West Virginia combined. The area protects spectacular herds of antelopes, zebras and elephants.

Under the present constitution, new elections must be held within three months. But few persons believe it would be possible to organize a nationwide vote in such a short time.

The premier is expected to face Parliament and take his chances of going down fighting.

**Popularity Sags**

Adoula's popularity inside and outside the legislature has sagged since he shook up his Cabinet in July and dropped all members of the nationalist faction that had a link with the slain Patrice Lumumba, the country's first premier.

A number of opportunists who sought to strengthen their positions during the earlier days of crisis have been jailed. The include Lumumbist party chief Christophe Gbenye; Joseph Miduho, former vice president of the Chamber of Deputies (lower house); and Jean Miruho, former president of Kivu Province.

Many political leaders suspected of hatching plots have gone into hiding or fled to the nearby Republic of Burundi. Some, like former Deputy Premier Antoine Gizenga, are under house arrest. Nobody is sure how many deputies and senators will turn up for Monday's sessions.

Appeals for U.N. guarantees against arrest or assassination have come from opposition members. Tshombe's supporters are unlikely to come to Leopoldville from Elizabethville unless their safety is assured.

Adoula's prospects of surviving a vote of confidence could rest on keeping his enemies divided. Nationalist opponents of a strong central government and Katangan secessionists are united only by their mutual opposition to the present regime.

Under the constitution left for the Congo by the Belgians in granting the colony independence, Adoula must get a two-thirds vote of members present of at least the Senate or Chamber of Deputies to dissolve Parliament.

Adoula has shown no personal ambition to become a strongman but he is under pressure from some members of his inner Cabinet who are afraid of being cast into the political wilderness themselves if he falls.

The central government's rule is weak or almost nonexistent in some part of the interior, however, and dissolution of Parliament could spur breakaway bids.

## Voters League To Meet

THE League of Women Voters of the Stroudsburgs will meet Thursday, November 8 at the Old Stone House, 54 E. Brown St., East Stroudsburg. The meeting will start with dessert and coffee at 7:30, after which there will be a panel discussion on the current, controversial subject of school district reorganization, followed by a general discussion with questions and answers.

The hostesses are Mrs. Arthur Jensen, Miss Mary Kistler and Mrs. H. W. Goldstein.

Any women who are not already members, but who are interested in the league and its activities, are urged to contact the Membership Chairman, Miss Vermetta Decker, 22 N. 8th St., Stroudsburg.

## Raymond Price, Inc. Features New Tractors

NEW styling, new color combinations, and more than 120 advancements and improvements distinguish the new line of Ford tractors which are being displayed by Raymond Price Inc., the Ford tractor dealer in this area. Raymond Price, Inc. is located at Cresco, Pa.

"Traditionally, Ford tractors have been red and gray or red and buff. Now blue, a symbol of quality and integrity, replaces red. Traditionally, each specific model came from the factory with specific equipment installed. Henceforth, customers will be able to select a basic model, and can order this tractor 'custom-built' with exactly the special equipment they want for their specialized needs.

The new Ford tractors are offered in four series: "2000", "4000", "5000", and "6000". The 2000 series, rated as two-

three plow tractors with 30 to 38 PTO horsepower, provides farmers with two all-purpose (four-wheel) models, one row-crop (tri-cycle) model, and one offset-design model. Two 2000 series models in the same power range are specially designed for industrial.

In the 4000 series, which are rated as three-four plow tractors of 40 to 50 PTO horsepower, there are row-crop and all-purpose models for agricultural use, and four industrial models, including a heavy-duty fork lift tractor.

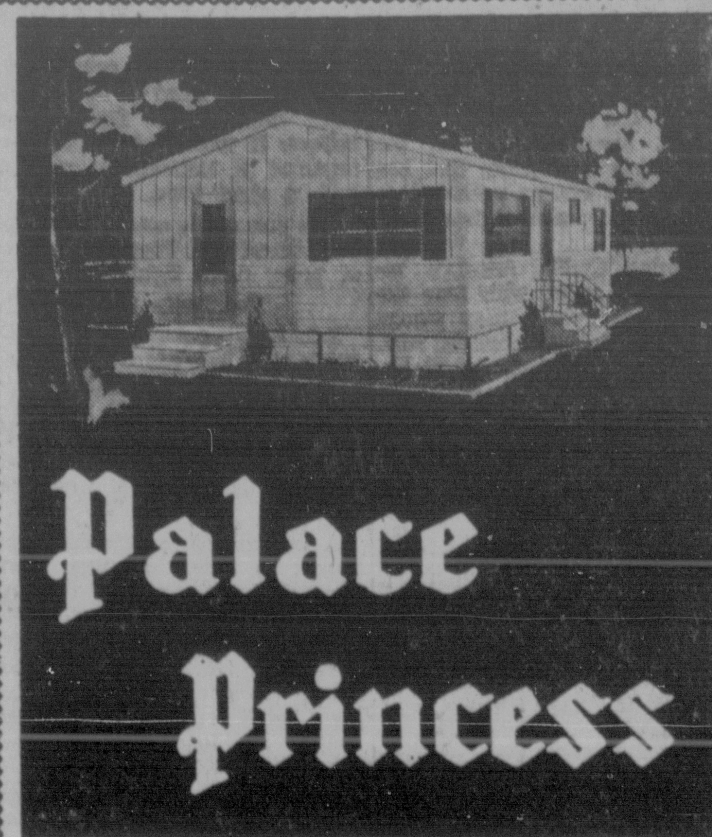

In the 5000 series, with over 50 belt horsepower, an all-purpose tractor for agricultural or industrial use is available.

The 6000 series, with over 60 PTO horsepower, provides farmers with a row-crop tractor for dependable, economical performance in big-capacity farming.

**AVOID LAPS**  
IDEALLY, the best way to paint the side of a house is from scaffolding so that you can paint across the entire width and thus not have any lap marks. If you are painting from a ladder, however, its simpler to paint from the top down covering an area as wide as you can comfortably and safely reach.

(Subscribe to The Daily Record)

**CHECK FOR BARE METAL**  
BEFORE painting the wooden portions of your home be sure to check any metal for bare spots, the National Paint, Varnish and Lacquer Association cautions. Rub away rust with steel wool and prime iron and steel with a corrosion resistant primer. Galvanized steel should be primed with zinc dust-zinc oxide paint or with a primer designed for use on this metal. After the metal primer has dried, apply the top coat.

## New Booklet Explains Thermopane Windows

HOMEOWNERS, present and prospective, will find a wealth of interesting information on the important economic and aesthetic advantages of using Thermopane insulating glass in their homes in a new booklet "Open World Living with Thermopane Insulating Glass" published by Libbey-Owens-Ford Glass Company.

Lavishly illustrated with photographs of actual Thermopane installations in attractive, modern homes, the 12-page booklet explains such points as the advantages of Thermopane in gaining greater winter and summer comfort at more economical heating and air conditioning costs, its use in sliding glass doors and remodeling projects, plus sections on how the product performs, the different types of Thermopane and the various styles of windows for which standard-size units are manufactured.

The booklet (Form TP-3), is attractively bound in a full-color cover. Copies are available from LOF distributors listed under "Glass" in the telephone directory yellow pages, or from any company district sales office.

**SAME COLOR**  
IF it is going to take more than one can of paint to do a surface, mix all the cans together in a larger container before starting. This will assure complete uniformity of color, the National Paint, Varnish and Lacquer Association points out. Pour the paint back into the individual cans and reclose them until you are ready to use them.

# Some States Seek Ways To Ease Voting Requirements

WASHINGTON (AP)—A national population that is increasingly mobile because of shifting industry and early retirement is prompting the states to ease voting requirements for new residents.

Voters in a half dozen states will ballot on such proposals Tuesday—part of a wide assortment of 226 proposed constitutional amendments and referenda on state ballots.

Matters dealing with communism, racial problems and state powers in case of nuclear attack

will be dealt with at the polls along with the more familiar subjects of taxes and bond issues.

The biggest issue is reapportionment and the plans devised by the states as a result of the U.S. Supreme Court decision that country and city voters should have proportionate representation in state legislatures.

**13 States Voting**  
There are 13 states voting on this matter in various forms. They are California, Colorado, Florida, Georgia, Hawaii, Mississippi, Nebraska, North Carolina, Oklahoma, Oregon, Tennessee, Washington and West Virginia.

In California, an issue that has split the voters at least as much as the hot race for governor between Gov. Edmund G. Brown and former Vice President Richard M. Nixon is a constitutional revision plan to toughen the state's organic law against communism.

It would extend to state university and college employees the present law requiring public school teachers to testify before federal and state investigation of communism.

It would outlaw the Communist party and permit state grand juries or federal officials or agencies to determine which organizations are subversive or "Communist front" groups. Both Brown and Nixon oppose the plan.

Voters in Kansas, Idaho, Arizona and North Carolina will be balloting on whether to cut sharply the residence requirements in order to vote for president and vice president, though longer residence requirements still may be required to vote for other political offices. South Carolina is deciding whether to cut residency requirements for all voting purposes.

**New Twist**  
Wisconsin has a twist on this idea. A proposal up for decision there would preserve for two years after he leaves the state the right of a voter to cast his ballot in his old home precinct. Presumably he couldn't vote also in his newly adopted state.

There are racial issues on the ballots in Arkansas, Georgia and Louisiana.

## Classes On Acting To Open Tuesday

JANA Pearce (Mrs. Jack Irwin) will open acting classes under the sponsorship of the Pocono Art Center on Tuesday evening, Nov. 6, from 7:30 to 10:30 p.m. at the Gallery of the Pocono Art Center, 586 Main St., Stroudsburg, Miss. Pearce and her husband, Jack Irwin, have just returned from a successful run of The Music Man at Nashville, Tenn., where they played romantic leads together, and won rave reviews from all critics.

Classes will be conducted weekly on Tuesday evenings at the Gallery of the Pocono Art Center. Interview for admission to the classes will be from 2 to 4 p.m., this Tuesday, or by appointment, phone 421-5983.

Jana Pearce has studied with Lee Strasberg of the Actors Studio, as well as with other groups. Her theatrical background included performing as a dancer, singer and figure skater. This summer they conducted the Cherry Lane Theater through a successful repertory season in this area.

### WILL AMERICA

### STRIKE OUT?

America has long been battling high in science and invention, business and trade, living standards and ideals for peace. But there may be scoreless innings if we do not train enough heavy hitters with higher education.

This is causing concern. Many colleges are in a squeeze. Some face shortages, and in less than 10 years there will be twice as many applicants.

To stay ahead, we must see that our colleges have modern laboratories, enough classrooms and a steady supply of competent teachers.

### HELP THE COLLEGE OF YOUR CHOICE NOW!

To find out how the college crisis affects you, write to HIGHER EDUCATION, Box 36, New York Times Station, New York 36, N. Y.

## MIS-STATEMENT BY THE REPUBLICAN CANDIDATE FOR GOVERNOR

Pennsylvania reduced its expenditures in conservation last year.

**FACT:** It increased expenditures by \$1-million in regular appropriations alone, not to mention a dramatic increase in the General State Authority conservation budget. Again he deliberately lied by ignoring the shift from a biennial to an annual budget.

## County Agent Outlines Wheat Program Changes

FARMERS who are going to take part in the 1963 wheat stabilization program should be careful to sign up only as much acreage as they intend to divert, Donald Reish, chairman of the Monroe County Agricultural Stabilization and Conservation Committee, said today.

The signed acreage for 1963 will be a binding agreement, the chairman explained, and farmers will have to divert the full acreage for which they sign up in order to be eligible for any payments — including diversion payments, the regular price support loans or purchase agreements, and the extra wheat price-support payments.

"This is a change from the 1962 program," Reish declared. "Under the 1962 wheat stabilization program, a farmer could sign up for 30 acres, and then divert only 20, and still earn payments on the acreage he actually diverted."

"For 1963, however, such a farmer would not be eligible for any diversion or price-support payments. His failure to divert the whole acreage he signed up would cancel his eligibility for any kind of wheat-stabilization or price-support program assistance."

"We hope that farmers will con-

sider their plans carefully before they file their applications to take part in the wheat stabilization program, and that they will then sign up only as much wheat acreage as they intend to divert."

The sign-up under the 1963 wheat stabilization program for winter wheat is now under way at the Agricultural Stabilization and Conservation Service county office. It will continue through December 14.

## Muscular Dystrophy Drive Starts In Three-County Area

A \$10,000 goal has been set for the 1962 march on muscular dystrophy in Monroe, Carbon and Schuylkill counties.

The campaign, which officially began earlier in the week with the placement of 1,132 canisters in the business districts of the three-county area, will be climaxed during Thanksgiving Week with door-to-door solicitations.

The target announced by Fred Sweitzer of Lehigh, president of the Carbon-Monroe-Schuylkill Chapter, Muscular Dystrophy Assn. of America, sponsors of the annual appeal, is \$1,000 above last year's figure.

A year ago contributions reached an all time high of \$12,481.02, easily surpassing the \$9,000 goal. All total the chapter has raised more than \$30,000 in four years.

This year's drive is being coordinated by Mrs. Margaret Sweitzer who is currently recruiting volunteers for the house calls. A total of 41 communities will be solicited this year in the three-county area.

Schuylkill County is being covered entirely for only the second year. The association expanded to Schuylkill County last year. Previously only Tamaqua and Coal-dale were included in the chapter's area.

The emphasis this year is to raise funds for medical research Mrs. Sweitzer says. "Funds are vitally needed for increased medical research as well as to maintain and expand MDAA's nationwide network of clinics and patient service programs carried out by chapters the country over."

Twenty-five percent of all contributions remain with the chapters for this purpose. The Carbon-Monroe-Schuylkill chapter is carrying quite a load in its patient service program. The addition recently of eight dystrophics brought the total in the three counties to 25.

Many of these dystrophics are being treated in their homes every week. Others are undergoing care

at Lancaster Hospital where MDAA conducts a clinic.

The chapter also provides its patients with special therapeutic devices such as braces, lifts, shoes and wheel chairs. Only recently the chapter delivered its fourth specially-built wheel chair to a patient in Pottsville.

The Rev. Harold Engle of Lehigh, the chapter's patient service director, is currently investigating a new case in the Lehigh-ton suburbs of Long Run.

## Dave Beck Is Acquitted

NEW YORK (AP) — A federal jury acquitted former Teamsters President Dave Beck yesterday of charges that he violated the Taft-Hartley Act by accepting a \$200,000 loan from truckers. Also acquitted were his trucking industry codefendants.

Only 45 minutes before returning the verdict, the seven-man and five-woman jury had tried to report itself deadlocked. But U.S. Dist. Judge Wilfred Feinberg sent them back into deliberation.

The former head of the Teamsters was temporarily released from prison to stand trial here with two trucking company officials and three corporations.

Acquitted with Beck were Roy Fruehauf and the company he formerly headed, the Fruehauf Trailer Co. of Detroit; Burge Seymour and the company of which he is president, Associated Transport, Inc., of New York; and the Brown Equipment & Manufacturing Co., subsidiary of Allied Transport.

## Just Between Us---

When the telephone rang on Sunday morning, I wasn't at all sure that when I opened my mouth that any voice would come out since I hadn't spoken a word to a living soul for 24 hours, which for me is somewhat of a record.

The weather was such that home was a cozy place to be. There were plenty of chores to be done. There is a busy week coming up including the merry-go-round of an editorial election night. There was every reason for my self-imposed isolation.

I wasn't lonely. I wasn't bored. I even got some of the things accomplished I had planned to and did a lot more of the things I wanted to do. But in the course of the 24 hours I thought with respect of the women who do this all the time, and yet keep themselves interested and interesting.

Without the spur of the need to earn my daily bread, without the stimulation of other people—I'd probably stagnate like a swamp with no outlet, hatching nothing but mosquitoes. It may be that I don't hatch anything more valuable at any time but I feel more useful just reporting what other people are doing.

And other people were doing plenty over the weekend. Mabel Meyers was rejoicing in the even 300 sewing kits which the church women in the county united to assemble for missions and in the whole spirit of cooperation which marked world community day.

Muriel Hughes reported a wonderful turnout for the VFW banquet, was enthusiastic about the program and still a little fearful about the honors which had come to her and to Hinkley.

And all reports from John Wilson's testimonial dinner on Saturday night indicate that the weather didn't spoil a thing—just made the party cooler for having everybody arrive safely.

And the week ahead is going to be even busier. Just remind me not to complain about it, will you?

Tomato aspic makes a fine first course. Turn the aspic into a square cake pan to set and then cut in small cubes. Pile the aspic into soup cups and add a topping of sour cream and minced chives or green onion (scallion); include some of the green top when you chop the onion.

Metal molds are best for gelatin mixtures although molds from other materials may be used. The metal allows a sharp delineation of pattern and easy unmolding.

## Mrs. Hasara Is Surprised By Baby Shower

Sciota — A surprise baby shower was held recently in honor of Mrs. Patricia Hasara given by her sister-in-law, Janet Haney, and her sister, Nancy Reifinger at the home of Mrs. Hasara's mother, Mrs. William Haney, Sciota.

The guests were all seated in the darkened living room when Mrs. Hasara arrived, expecting to go shopping with her mother, only to be surprised by shouts of surprise.

An antique cradle was used to hold the gifts. It was decorated with a large stork and pink and blue ribbons.

A buffet supper was served after she had opened her gifts. The table was centered with a cake, baked by her mother, with pink and blue booties as decorations and a pink umbrella suspended over it.

Attending the shower were Mrs. Elizabeth Kauffman, Mrs. Alice Lawlin and daughter, Cheryl, Mrs. Ruth Mackin, Mrs. Ruth Rinker and daughter, Rosemarie, Ronnie Haney, Mrs. Hazel Buzzard, Mrs. Kathryn Kitcher, Mrs. Patricia Samanske, Mrs. Donna Phillips, Patricia's daughter, Connie, and her grandmother, Mrs. Emma Haney.

Also sending gifts were Mrs. Anna Hasara of Stroudsburg and Mrs. Bernadine Nash of Allentown.

# Warriors Chalk Up No. 7; Defeat Cortland By 20-0

CORTLAND, N. Y. — Coach Jack Gregory is still wearing his same brown suit, Panama hat and brown shoes.

Toby Barkman and Jan Beliveau are still scoring touchdowns.

Bill Lewis is still throwing touchdown passes.

And East Stroudsburg State College's Warriors are still undefeated, untied, after seven games of this triumphant football season for the boys on college hill.

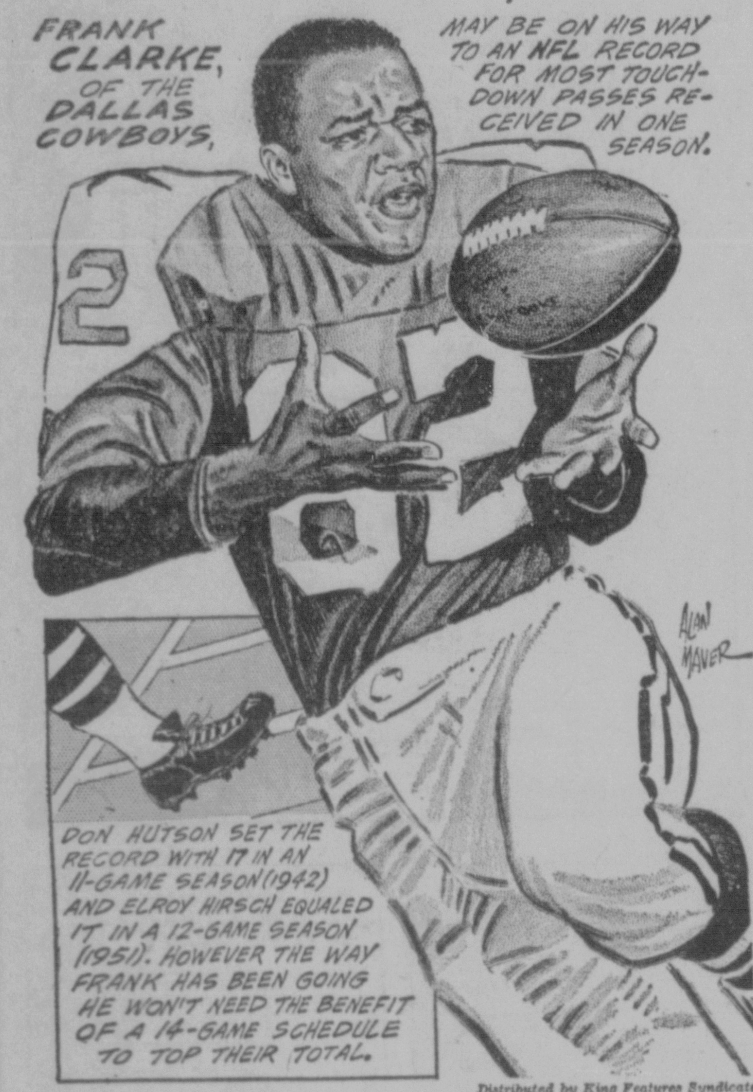

Victim No. 7 was Cortland on the upstate New York gridiron Saturday — and now there's one to go. That's Bloomsburg.

Romps By 20-0

Beliveau scored two of the Warriors' TD's while Barkman added another on a pass from Lewis as ESSC romped over Cortland by a 20-0 count in a driving snow storm before a sparse parents' day crowd.

## Pius X Splashes To 20-0 Victory

BANGOR — The Royals of Pius X yesterday splashed through to a 20-0 victory over St. Michael's of the Stroudsburgs with Steve Zegalia paving the way for the Royals' third win of the season.

Zegalia tallied two of the touchdowns for Coach Vince Shemanski's eleven, while Frank Zito added the other for the triumph.

Pius X contained the Swords-men on the ground, holding them to but 38 yards, although St. Michael's was able to complete 10 of 12 passes — all short ones, however — for a total of 67 yards.

**First Touchdown**

The Royals garnered their first TD following a punt exchange in the first period as they took possession on their own 20. Two running plays brought the ball to the 30 for a first down, then Zegalia cracked hard off left tackle and scampered 70 yards across the goal line. Zegalia also added the conversion with a kick for a 7-0 lead.

A St. Michael's fumble, recovered by Zegalia on the Swords-men's 27, set up the second tally in the second quarter.

On the second play, Richard Fusaido passed to Zito in a play covering 20 yards to give the Royals a 13-0 halftime bulge.

**Strike Again**

The Royals struck again in the final quarter as another St. Michael's fumble was recovered by Zegalia on the Swords-men's 27, set up the second tally in the second quarter.

On the second play, Richard Fusaido passed to Zito in a play covering 20 yards to give the Royals a 13-0 halftime bulge.

## Packers Roll Over Bears; 16th Straight

CHICAGO (AP)—Ranrod Jim Taylor punched out four touchdowns Sunday and the unbeaten Green Bay Packers extended their all-game victory streak to 16 by smashing the Chicago Bears 38-7.

The triumph, accomplished on a blustery, damp day, was the Packers' eighth in National Football League action this season, keeping them on schedule en route to a third straight Western Division crown.

The Bears were knocked down by their fourth defeat in eight starts.

The Packers played without their scoring star, Paul Hornung, who was suited up but not called. He has been sidelined since Oct. 14 with a twisted knee.

The Bears, who were walloped 49-0 at Green Bay earlier in the season, had tied it 7-7 at 10:02 of the second.

tion become the better part of valor, continues to wear the same garb he wore Sept. 15 for the opening game of the season when East Stroudsburg handed a strong Montclair State eleven its only defeat of this season, 29-20.

It was the hard-running 200-pound Beliveau who crashed over twice from the one-yard line in the first half to supply a 14-0 halftime lead, which was more than enough for the Warriors whose defensive unit contained Cortland to but 55 yards rushing and nary a yard through the air.

Both first-half scores came at the costly expense of Cortland fumbles which were pounced on by East Stroudsburg players.

The first one came on the home team's 30-yard line, and six plays later Beliveau smashed over from the one for the first TD of the game. He also ran the conversion which was good for two points and an 8-0 lead.

Cortland fumbled the following kickoff to start things off in the second period and Jerry Wasilchak quickly recovered for the Warriors. Wasilchak, incidentally, was making his first appearance since being hospitalized more than a week ago.

Taking over on the Cortland 28, Beliveau again scored from the one after six plays. Lewis this time tried to run for the conversion, but he was stopped hard at the line of scrimmage.

In the final stanza, as runners were unable to find their footing, Lewis smartly called for a pass on the Cortland 18 — and his slightly-high aerial was neatly grabbed by Barkman who recorded his 11th touchdown of the season. This also was the only pass completion of the game. East Stroudsburg went to the air five times; Cortland, seven.

A pass from Lewis to End Joe Heverin was grounded for the PAT.

The pair of touchdowns for Beliveau gave him a total of 48 points for the season, while Lewis completed his fourth scoring aerial of the campaign — in the same amount he hurled last season.

## Terp Coach Blames Snow For Defeat

UNIVERSITY PARK, Pa. (AP)—"Let us come back and try them on a good day and it might be a different story!"

That's what a dejected Tom Nugent had to say Saturday after his Maryland football team bowed to fired up Penn State 23-7 in a blinding snow storm at Beaver Stadium.

"It was almost hopeless to throw the football in that kind of weather," coach Nugent moaned in the dressing room.

Until Saturday, passing was the Terrapins' most destructive weapon. Terp quarterback Dick Shiner went into the contest as college football's top ranked thrower.

But the weather and two Penn State quarterbacks — Pete Liske and Don Caum — turned the tide.

Liske, himself a top ranked passer, turned runner to spark the Nittany Lion offense, scoring two touchdowns on runs of 11 and 13 yards and gaining a total of 80 yards for the day.

Caum, knocked out of the offensive lineup by Liske, was the defensive standout, snaring two errant Shiner passes to set up State's last two scores.

The victory was State's sixth in seven starts. Maryland is now 5-2.

**Ground Attack**

The Royals, who now stand at 3-4 on the season, rolled up 199 yards on the ground while limiting its passing attack to only seven attempts for three completions and a total of 28 yards. But 20 of those yards came on a scoring pass.

Despite the sloppy playing conditions of the field, there were only a total of five fumbles in the contest, three by Pius X and two by St. Michael's.

Don't waste your sympathy on the injury-riddled Packers of Green Bay. They don't need it, just as they didn't need the services of scoring star Paul Hornung and their pass-catching ace Boyd Dowler Sunday in their 38-7 romp over the Chicago Bears before 48,753 spectators.

The one-sided victory was the eighth straight for the unbeaten Packers en route to their third straight Western Division crown in the National Football League. With just six games left, an undefeated season would be the league's first since the Bears won all their 11 games in 1942.

**Giants Win**

New York's Giants took over first place in the Eastern Division with a 31-28 victory over the St. Louis Cardinals before 62,755 at Yankee Stadium in the other feature. The Giants came from behind with a three-touchdown assault in a wild fourth period in which the Cards also scored two touchdowns. Y.A. Tittle's 20-yard TD pass to Alex Webster with less than four minutes remaining enabled the Giants to overcome a 28-24 Cardinal lead.

The Dallas Cowboys knocked Washington out of first place in the Eastern Conference with a 38-10 victory over the Redskins before a Washington crowd of 49,888. Cowboy quarterbacks Eddie LeBaron and Don Meredith tossed two touchdowns passes each.

Detroit's second-place Lions held to one touchdown by the Los Angeles defense, managed to defeat the Rams 12-3 before 44,241 for their sixth success in eight starts and keep their hopes alive in the west. Baltimore held San Francisco to a lone field goal and won 22-3 before 44,875 to tie the Bears for third place, at four victories and four defeats apiece.

**Steelers Triumph**

Pittsburgh scored 10 points in the final 27 seconds to achieve a come-from-behind 39-31 triumph over the Minnesota Vikings before a sparse gathering of 14,462 in Pittsburgh. Lou Michaels' 31-yard field goal overcame a 31-29 Minnesota lead and the Steelers added a touchdown following an intercepted pass seconds later.

Cleveland's Browns scored in final quarter to earn a 14-14 tie with Philadelphia before 63,845 home fans to partially avenge an earlier 35-7 loss to the Eagles.

The Denver Broncos regained first place in the Western Division of the American Football League with a 23-20 victory over the San Diego Chargers. A crowd of 20,827 Denverites saw the Broncos come from behind after trailing 17-7 at halftime.

## 547 And 555 Are Tops In 840 Classic

MARIE BONSER, East Stroudsburg, scored 547 to win the ladies match by a comfortable margin yesterday in the 840 Classic. Annabell Clark, Pocono Pines, totaled 486; Pat Schleiker, Buck Hill, 445; and Eileen Henger, Stroudsburg, 434.

In the men's match it was nip and tuck all the way with Nelson Stern, Canadensis, edging out Pete Casella, Tannersville, by a mere two pins, 555 to 553. Les Katz, Stroudsburg, scored 515 and Walt Arnold, Stroudsburg, 471.

Lineups for the first semi-final on Feb. 17 are now completed. They are:

Men — Dick Newhard, Tobyhanna; Russ Bergman, Stroudsburg; Jake Nittel, East Stroudsburg, and Nelson Stern, Canadensis.

## Eau Claire Withdraws From Loop

MINNEAPOLIS (AP)—Eau Claire, one of the charter members of the Class C Northern Baseball League, withdrew from the circuit Saturday but league officials nevertheless were optimistic that the league will operate in 1963 with eight teams.

Eau Claire, a charter member when the league was organized in 1933 and a member ever since, finished third last year and won the post-season playoffs. But attendance dipped about 5,000 in 1962 to 20,906.

**Maye Signs Up**

MILWAUKEE (AP)—The signing of outfielder Lee Maye to a 1963 contract was announced Saturday by the Milwaukee Braves. Maye, the second Milwaukee player to agree to terms for next season, was sidelined much of the 1962 campaign because of pneumonia. He wound up with a .244 average in 99 games.

## Favor Never Bend

CHERRY HILL, N. J. (AP)—The Cain Hoy Stable, which won the first running of the rich Garden State Stakes with Turn-To in 1953, will be back again with the heavy favorite next Saturday when Never Bend seeks to nail down the 2-year-old championship.

Ten or 12 juveniles, depending upon the number of supplementary nominations posted by the Monday noon deadline, are expected for the 10th running of the 1 1/16 mile event at Garden State Park.

The gross value will be about \$300,000, with around \$180,000 to the winner.

Never Bend has won three major stakes since he finished second in Chicago Sept. 8 behind Rex C. Ellsworth's Candy Spots in the \$357,250 Arlington-Washington Futurity. He won the Aqueduct Futurity, then the Cowdin and Champagne at Belmont Park.

The Garden State will afford him a chance to get back at Ada L. Rice's Delta Judge, who beat him Aug. 4 in the \$100,000 Sapling Stakes at Monmouth Park.

Among others likely to start is Elmendorf Farm's Rash Prince, winner of Saratoga's Sanford Stakes. He is a son of Prince John, who won the 1955 Garden State for Elmendorf and trainer Walter Kelley.

Patrice Jacobs' Bonjour, R. F. Bensinger's In the Pocket, Harbor View Farm's Master Dennis, Dorvil Stable's Cosdave, and George D. Widener's Crewman are others. Crewman has won three straight. In the Pocket nipped Delta Judge in a recent exhibition here. Cosdave won the Miles Park Derby.

Three possible supplementary nominees are Philip Godfrey's Sum Dum Kid, T. E. Brittingham 3rd's Valiant Skool, and Mrs. Russell L. Reineman's Smart Deb. Smart Deb is a leading candidate for the 2-year-old filly title, but many believe she's capable of beating most of the colts.

If the three are nominated at \$10,000 apiece by noon Monday, the purse will go over \$300,000. The race already is worth \$278,530, and it costs each owner \$2,000 to start. The richest Garden State was 1956 when Calumet Farm's Barbison made off with \$190,141 from a \$319,210 grass.

The combined Arlington-Washington Futurity this year became the world's richest race, but not to the winner, which still is the Garden State, Candy Spots, who retired for the year after winning at Chicago, earned \$142,250.

For the record, five of the first nine Garden State winners were voted the 2-year-old champions — Barbison, Nadir, First Landing, Warfare and Crimson Satan. Five of the last six Kentucky Derby winners started in the Garden State — Needles, Iron Liege, Tommy Lee, Carry Back and Decidedly. Carry Back won the Garden State, Tommy Lee was second, Needles finished third here. Decidedly and Iron Liege ran out of the money.

## Giants In Eastern NFL Lead

NEW YORK (AP)—The New York Giants moved into the Eastern Conference lead in the National Football League Sunday with a 31-28 victory over St. Louis, saved by Dick Lynch's interception during a wild last period in which five touchdowns were scored.

The Cards, led by Charley Johnson, a fine sophomore quarterback, took a 14-10 lead into the final period before the teams started trading touchdowns. The Giants had scored three times and the Cards twice in those final frantic minutes before Lynch grabbed a Johnson pass deep in New York territory.

Sonny Randle had a tremendous day for St. Louis. He grabbed 16 of Johnson's passes for 256 yards. St. Louis 0 14 0 14-28

**SUN-LESS SATURDAY** — This was a typical scene Saturday in area gridiron non-activity as heavy rains, mixed with hail and snow forced a host of postponements today. This is view of East Stroudsburg's Memorial Stadium where — fortunately — no game was scheduled for that day. But other fields were likewise inundated with water—and un-inundated with spectators.

## Giants In Eastern NFL Lead

NEW YORK (AP)—The New York Giants moved into the Eastern Conference lead in the National Football League Sunday with a 31-28 victory over St. Louis, saved by Dick Lynch's interception during a wild last period in which five touchdowns were scored.

The Cards, led by Charley Johnson, a fine sophomore quarterback, took a 14-10 lead into the final period before the teams started trading touchdowns. The Giants had scored three times and the Cards twice in those final frantic minutes before Lynch grabbed a Johnson pass deep in New York territory.

Sonny Randle had a tremendous day for St. Louis. He grabbed 16 of Johnson's passes for 256 yards. St. Louis 0 14 0 14-28

## Rain, Snow And Hail

## Monday Morning QB's Must Wait

THERE won't be many Monday morning quarterbacks today. They'll have to wait until tomorrow.

Heavy rains, mixed with snow and hail, shoved up many of Saturday's football games until today.

Among the area grid contests re-booked for today are Pen Argyl at Hellertown and Bangor at Palmerton (both at 2:30 p.m.) and Slatington moving to Gordon Giffels Field against Stroud Union in an arc battle starting at 8 p.m. The game originally was slated at Slatington Saturday afternoon but was shifted to Stroudsburg because of lack of lighting facilities there.

Also knocked out of the sports picture Saturday was the second annual Punt, Pass and Kick program scheduled for Gordon Giffels Field, and the Stroud Union elementary "All-Star" soccer match at the Stroudsburg Play-ground. Both events will be held next Saturday.

Today's scheduled game between Pocono Mountain and Lehigh Valley's JV's has been shoved up to Wednesday because of the Lehigh Valley game was postponed until today. Also, the Stroud Union JV's, who were slated to play at Pleasant Valley, has been postponed indefinitely for the same reason as the Mountaineers play tonight.

Only game at all played Saturday in the Lehigh Valley was Summit Hill and Newquehoning

which ended in a farcical 0-0 tie — as may well have been expected in the slush and mud.

In all, 11 of 12 Lehigh Valley grid contests were postponed — 10 of those re-scheduled for today.

And the Monday morning quarterbacks will have to postpone their second-guessing until Tuesday.

## Eagles, Browns In Tie

CLEVELAND (AP)—The Cleveland Browns and Philadelphia Eagles battled to a 14-14 deadlock Sunday in a game replete with breaks and missed opportunities for each team.

Two of the game's greatest placekickers, Bobby Walston of the Eagles and Lou Groza of the Browns, missed opportunities to win the rugged contest. Groza missed from 42 and 45 yards and had one from the 11 yard line. Walston's tries from the 25 and 41 also were wide. Walston's last one came with only one second to play.

Eagles' team had three passes intercepted and each lost a fumble.

The Eagles, who defeated the Browns, 33-7, a few weeks ago for their only National Football League victory, scored on the game's second play after John Nocerla had picked up Jim Brown's fumble on the Cleveland 25. Clarence Peaks swung around left end for 22 yards and the score.

# Mississippi Coach Calls Team 'Best'

By WILL GRIMSLEY  
Associated Press Sports Writer

"There's not a better team in the nation..."

With this rare public praise for his own team, Coach Johnny Vaught of Mississippi has issued a challenge to such powers as Northwestern, Alabama and Southern California and plunged his Rebels into the thick of the scramble for the national college football championship.

**Ends Frustration**

Vaught issued his own private No. 1 vote after Mississippi's 15-7 victory over Louisiana State Saturday night, ending five years of frustration for the Rebels against their perennial "spoilers."

The triumph not only kept the Rebels in the dwindling list of unbeaten and untied teams, now reduced to five, but virtually assured them their first perfect season in 16 years under Vaught and a lucrative bowl bid.

## Undefeated And Untied Susquehanna And ESSC Still Roll

Snow, rain and sleet took the edge off the past Pennsylvania football weekend in many games, but Susquehanna and East Stroudsburg, the state's only undefeated, untied teams, rolled on.

Susquehanna more than evened things with Oberlin, which tied the Crusaders 7-7 last year — by extending its unbeaten string to 20 games with a 42-7 victory at Oberlin, Ohio. All but one of Susquehanna's touchdowns came on long drives as it romped to win No. 7 of the season. Halfback Larry Kissinger and fullback Larry Kerstetter each scored twice.

**Still On Top**

East Stroudsburg traveled to Cortland, N.Y., and scored a 20-0 decision over Cortland Teachers.

## Second Half Magic Titans Scramble To Win, 31-21

NEW YORK (AP) — The New York Titans used their newly found second half magic for 28 points and scrambled to a 31-21 victory Sunday over the winless Oakland Raiders in the American Football League.

Using the scoring combination of quarterback Johnny Green to Don Maynard, and adding the running of Dick Christy and Bill Mathis, the Titans burst stormed from behind to get their fourth victory in nine starts and had the Raiders their eighth loss this season and 14th straight in AFL play.

**Interference**

It was a costly pass interference by the Raiders' secondary early in the final period that set up the clincher for New York. Defensive back Bob Garner held the Titans' Thurlow Cooper on the one-yard line and two plays later Green banged over for a touchdown to give New York a 24-21 lead. Mathis' 2-yard plunge for a score later in the period just added window dressing.

Green's TD followed an electrifying 72-yard touchdown pass from Oakland's Cotton Davidson to Bo Roberson that put Oakland in front 21-17. Roberson outgained defender Lee Riley for the ball on the Titan 24-yard line and scored unmoored.

## Top Ten Scores

Here's how the nation's top ten college football teams fared in Saturday games:

1. Northwestern (6-0) beat Indiana 26-21.
2. Alabama (7-0) beat Mississippi State 20-0.
3. Southern California (6-0) beat Washington 14-0.
4. Louisiana State (5-1) lost to Mississippi 15-7.
5. Texas (6-0-1) beat Southern Methodist 6-0.
6. Mississippi (6-0) beat Louisiana State 15-7.
7. Michigan State (4-2) lost to Minnesota 28-7.
8. Arkansas (6-1) beat Texas A&M 17-7.
9. Washington (4-1-2) lost to Southern California 14-0.
10. Auburn (5-1) lost to Florida 22-3.

**Best In East**

Army ranks as the East's best team, although Dartmouth is the only one in the section with a perfect record. Dartmouth pounced on two fumbles for a 9-0 victory over Yale.

# Dietzel Says Army Good, But Team Is Not Great

By ED TUNSTALL

BOSTON (AP)—Army football coach Paul Dietzel, who molded a national championship team at Louisiana State, thinks he has a "real good football team" at West Point this year, but he grades it far from being great.

The tall, 33-year-old Army coach chatted with newsmen after his Cadets walloped Boston University 26-0 Saturday for their sixth victory in seven games this year.

**Reviews Game**

He munched on a sandwich and sipped a soft drink as he reviewed the game and touched on matters far away.

"Every time we win a game, the Michigan game makes me a little madder," he said, referring to Army's 17-7 loss, its lone setback of the season.

Dietzel, who consistently placed his LSU teams among the nation's best, was perhaps doing some thinking out loud and wondering how high his Cadets would rank were it not for that loss.

**"Good Balance"**

"We've got pretty good balance on our three teams," he said, but then added that there was the big difference between his LSU teams and this year's Army squad.

"It's simply that we have no Cannon—a superstar," he told a

## Investment Plans

By William A. Doyle

Q. I started buying stock of a well-known company several years ago. I invest \$100 a month through the New York Stock Exchange's "Monthly Investment Plan." The plan was worked out for me by the local office of a reputable brokerage firm. Each month after I send in my check I receive a confirmation statement showing the full particulars of the latest purchase and the current status of my account. It shows the number of shares I own right down to the fourth decimal place. I now own 182.3942 shares.

I like this systematic method of investing. I like the idea of being able to invest fixed amounts of dollars to buy fractional shares. I especially like the fact that, through this plan, the dividends on my stock are automatically reinvested in additional shares of stock.

But some friends advise me that it is dangerous to leave my stocks with a broker. They advise me to instruct the broker to register the stock in my name and have a stock certificate sent to me at least once a year. What do you advise?

A. I advise you to advise your friends to stop giving advice on something about which they evidently know little or nothing.

As this column pointed out recently, as long as you are dealing with a reputable broker, the "net capital requirements" and "broker's fidelity bond" protect you against any possible danger of loss such as your ill-advised friends suggest.

Many, many investors leave their stocks with their brokers. It's an easy way to handle things, especially when you are buying through the Monthly Investment Plan—MIP, for short.

You listed so many of the good points about MIP that the evil suspicion popped up that maybe one of the drum-beaters at the New York Stock Exchange was trying to plant a letter in this column.

Seriously, MIP does provide a simple and sensible way to invest anywhere from \$40 to \$1,000 every three months in almost any of the stocks listed on the New York Stock Exchange.

You can get a certificate for the shares of stock you are accumulating through MIP, any time after you own full share. If you own less than 30 shares, there is a charge of \$1 plus mailing costs.

But then you could not have your dividends reinvested automatically. And the reinvestment of dividends is usually a smart thing for someone who is trying to build up the size and value of his total investment.

Q. I was all set to start investing \$100 a month through the New York Stock Exchange's "Monthly Investment Plan" when I learned that the commission charge on \$100 would be \$6. That six percent bite seems too high. Would I save on commissions by saving my money and investing \$300 through MIP every three months?

A. Yes, the commission on \$300 invested through MIP works out

to \$8. As in the case of most stock purchases, the MIP commission schedule is set up on a sliding scale.

The MIP commission is six percent on purchases of \$100 or less. Where the purchase is between \$100 and \$399, the commission is \$2 plus two percent, with a minimum of \$6. Where the purchase is between \$400 and \$1,000, the commission is \$6 plus one percent. It's no secret that many investors make their MIP investments every three months to save on commission charges.

## Candidates File Lists Of Contributors

WASHINGTON (AP)—Sen. Joseph S. Clark, D-Pa., has filed a detailed list of contributors to his campaign for re-election, while his opponent, Rep. James E. Van Zandt, R-Pa., reports all contributions to his campaign went to a committee in Altoona, Pa.

Clark's list, submitted to the office of the Senate clerk, included \$9,800 from the Pennsylvania Democratic state finance committee and \$2,000 from the United Auto Workers citizenship department.

Several hundred individual contributors included William C. Churchman III, \$2,000; Sidney B. Dexter, \$2,000; Alfred M. Klein, \$2,000; Browning Holcombe, \$2,000; Everett F. Zurn, \$1,250; Melvin A. Zurn, \$1,250; and John F. Lewis Jr., \$1,000.

Van Zandt reported one expenditure of \$50 to the Commonwealth of Pennsylvania, presumably for filing his nominating petitions.

His report stated all contributions received toward defraying his campaign expenses have been assigned to the Van Zandt for U.S. Senate Committee in Altoona, his home city. W.A. Morgan was listed as chairman and Mrs. Peggy R. Baumgartner, treasurer.

## Pews Contribute \$12,000 To GOP

WASHINGTON (AP)—A 1962 contribution of \$12,000 from the estate of the late J. N. Pew Sr. of Philadelphia has been reported by the Republican Senatorial Campaign Committee.

On the \$12,000 check was a notation specifying that \$3,000 each was to be credited as a contribution from four members of the Pew family, a spokesman for the committee reported. The four are: J. N. Pew Jr., J. Howard Pew, Mary Ethel Pew and Mrs. Mabel Pew Myrren, all of Philadelphia.

Another \$12,000 was contributed by the same four to the GOP Congressional Campaign Committee to help elect Republican candidates for the House, a report to the House clerk showed. Each was credited with \$3,000.

Reps. Paul B. Dague and Leon H. Gavin, Pennsylvania Republicans also reported that each received a total of \$1,000 from the same four members of the Pew family.

## Last Convoy Reaches Villages

WOSKOW (AP)—The last convoy of ships supplying villages in the arctic Soviet Union passed through Bering Strait and anchored Sunday at the port of Providence, just opposite America's Lawrence Island, off the Alaskan coast.

The new Soviet icebreaker Moskva, operating in these waters with two other icebreakers, has kept navigation open a month longer than usual, Tass reported. Normally these areas are frozen up nearly nine months of the year.

## Monroe Red Cross Hears Reports At Annual Meet

THE regular monthly meeting of the Monroe County Chapter, American Red Cross, was held on Thursday, Nov. 1, 1962, at 7:30 p.m., with Mr. Celeste Rossi, Chairman, presiding.

For Volunteer Service, Mrs. H. Jack LaBar reported that 134 volunteers served 1,281 hours during the month of October.

Mrs. Clifford Heller gave the following Home Service report: 13 active service cases, 20 wires, 18 long distance telephone calls and there were 140 office interviews.

Mrs. Thomas Shoemith, chairman of Home Nursing, reported that classes will be conducted on home nursing at Stroud Union Schools starting in January.

In absence of Mrs. Helen Taylor, Mrs. Edward Green reported that first aid classes are being conducted at the Municipal Building and at the Tobyhanna Army Depot.

The chairman read a concise report of the various number of servicemen who were assisted during the month.

The board accepted with deep

regret the resignation of Mrs. James Moran who so efficiently assisted in the Welfare Aid Program and on the Home Service Committee at the Tobyhanna Army Depot.

Chairman of the Blood Program Joseph DeRenzis, announced that the next blood drive will be at the Stroudsburg Presbyterian Church on November 14 from 9:45 to 3:45 sponsored by the women volunteers of the Red Cross.

Mr. Rossi introduced two new board members: Mrs. Dayton Eddy, Tobyhanna Army Depot, and Jack Mullins, Mullins was appointed vice chairman to DeRenzis in the Blood Program.

## Plans Announced For Nat'l. Education Week At Bangor

PLANS have been announced as complete for the annual celebration of National Education Week during November 11 through the 17th in the Bangor Area Joint School System. The committee in charge has reported that visitations have been established for all the area schools.

The adopted schedule is as follows: Columbus School, Roseto, Nov. 12 from 7 to 8 p.m. followed by the regular PTA meeting in that school; East Bangor School, Nov. 12 from 7 to 8:30 when interested persons will be able to see the recently renovated building; Lincoln School, Bangor, visiting hours Nov. 15 from 7:30 to 8 p.m. followed by the meeting of the PTA; McKinley School, Bangor, Nov. 14 from 7 to 8 p.m.; Portland School, Nov. 14 from 7:30 to 9 p.m.; Roosevelt School, Bangor, Nov. 14 to 8 p.m. followed by the regular PTA meeting and the Washington School Nov. 14 from 7 to 8 p.m. followed by a meeting of the PTA.

The secondary schedule has been established for visitation as follows: the Junior High School Building on Tuesday, Nov. 13 from 7:30 to 9:30 p.m. The first part of this visitation will include a program in the auditorium with a play presented by the Junior High School Dramatic Club under the direction of Miss Janice Kennedy, remarks by Millard Gleim principal and Armon M. Williams, junior high guidance counselor with Edward C. Fisher serving as the master of ceremonies. The program will also feature organ selections by Linda Jane Lange. Parents are urged to visit teachers in their class rooms following the program and later to take part in the social hour held in the school cafeteria.

Visitation for Senior High School at Five Points has been set for Thursday, Nov. 15. The program for this event will be announced later.

## Dept. Commander Speaks At Lambert Post Dinner

TALKS BY the commander of the Pennsylvania Dept. of Veterans of Foreign Wars, Frank J. Zenzer of Norristown, and his wife, Dorothy, president of the state auxiliary, highlighted the annual past commanders and presidents dinner of Thomas P. Lambert Post 2540, VFW, Saturday night at the post home.

The dinner marked the 30th anniversary of the founding of the post. Members were presented 30, 25, and 20-year continuous membership lapel pins.

Charter members attending were George Hughes, Harry T. Decker, Daniel Walton, Robert A. Singer, John McConnell, Harold N. Bush, Russell Smith and Paul V. Weary. In addition, 20-year continuous membership pins were presented to past members Jackson Sandt, Charles Nevil and Jack Gehris.

Immediate Past Post Commander, Robert L. Hachtman, was cited for his outstanding service during his two terms as head of the post and was presented with a past commanders plaque.

A special citation plaque reading "for 30 years of meritorious and outstanding services to the Lambert VFW Post" was presented to George "Hinky" Hughes. In addition, a joint citation was presented to George and Myrt Hughes for their contribution in raising monies through the Poppy Sale campaign, for the rehabilitation program of the post and auxiliary for needy veterans and their families.

Mrs. Zenzer, presented a special citation plaque to Georgia B. Albertson, past auxiliary president, for "outstanding and meritorious service in the field of Civil Defense activities" both in Monroe County and for the Veterans of Foreign Wars Auxiliary of the Dept. of Penna.

Steve Stolinski, manager of the VFW entry in the Stroudsburg Little League, presented the 1962 championship trophies won by the VFW team to Post Commander Lawrence Savercool.

In behalf of the Ronson Corp., of Delaware Water Gap, a Ronson lighter was presented to Commander Zenzer for his interest and accomplishments for the veterans of Monroe County.

Guests from Scranton, Palmerston, Weatherly, Easton and New York City attended the affair. Major H. G. Baker of the East Stroudsburg Salvation Army Citadel gave the invocation and benediction. Elmer D. Christine, local

attorney, and past department commander, was master of ceremonies. Presentations were under the direction of George J. Straka, post quartermaster and assistant chief of staff for the Department of Pennsylvania, Veterans of Foreign Wars.

Following the banquet, an entertainment skit, "The VFW Folies," under the direction of Karen Roth and featuring her music and dance school group, was presented.

THE chairman of the Monroe County Commissioners yesterday described the "constructive relationship between State Government and the people of Monroe County" as "the best thing that has happened for our people in the past half century."

JOHN R. Lesoine said that State Government has done more for Monroe County in the past eight years than during the entire fifty-four years that preceded. Lesoine said:

"The Tourist Promotion Act, sponsored by Van Yetter and pushed through the Legislature by the Lawrence Administration is a

perfect example of this new spirit of cooperation. With money from this fund, the Pocono Mountains Vacation Bureau will be able to substantially expand its effort to attract new business to our community.

"The spirit of partnership and cooperation has been made obvious in many other ways, also. We have, today, one of the finest flood control projects in the Nation and the largest project of its kind ever undertaken by Pennsylvania's State Government.

"We have made enormous progress in the construction of highways — from the Keystone Shortway to the construction of the new Route 209 spur.

## BILL SCRANTON CAN TELL PEOPLE FROM BEARS

When our friends and neighbors were pleading for the desperately needed Keystone Shortway, Richardson Dilworth, Mayor of scandal-ridden Philadelphia, said there was *nothing up here but bears!*

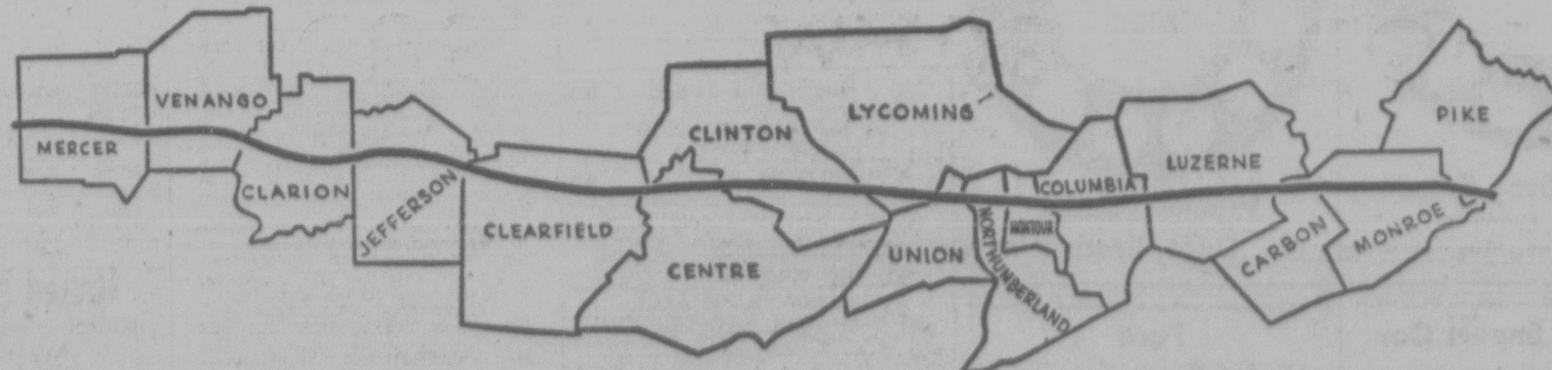

Now he wants the votes of us bears.

The Keystone Shortway would give this part of Pennsylvania an *economic lifeline*. It would make more jobs for Pennsylvania people by making this area more attractive to new industry.

Bill Scranton, who has always supported the Shortway, will get it built.

Bill Scranton, who likes and respects the people who live in these parts, will serve us best in every way.

He can tell people from bears!
